

▶ WE'LL TAKE YOU TO THE FUTURE

**We analyzed from a problem preceding then makes us solves can give you direct to the point.**

From the past until now, Iflex has changed system in factory give with customer. We have met the weakness of Industry. Many factory have not the system will support good growth in the future.

Iflex knew the weakness's problem so we have developed the application software that support this weakness.

Iflex has conducted our own research and development to enable us to produce quality works to complete with other countries and to truly fulfill the needs of local manufacturers. Improving the achievements of our customers is our main objective when we provide our service.

▶ PRODUCT & SERVICE

**Application Software**

**Small Application Software**

**Computer & Peripherals**

**Equipment Services**

**Outsourcing & Training**

**Interface with SAP**

▶ **Ready to install software**

▶ **BENEFITS**

- Reduce cost of Management
- Efficiency Information Management
- Increasing Customer Satisfaction

▶ **APPLICATIONS**

- Enterprise Resource Planning system (ERP)
- Warehouse Management System (WMS)
- Logistics Management System (LMS)
- Small - WMS System
- Manufacturing Resource Planning (MRPII)
