Fixed Asset Management System

SIMPLIFY FIXED ASSET MANAGEMENT, SAVE TIME & MONEY

Managing your fixed assets is a comprehensive task including keeping track of depreciation expenses, maintenance costs, and insurance policies related to the fixed assets. A customized File Maintenance function records the detailed information to apply to various fixed assets. The Depreciation Review option provides you with all the information you need regarding your assets and their Depreciation History.

Key Feature List

- Asset Master File
- Transfer assets between other department, jobs, location.
- Depreciation for the asset by groups.
- Fixed asset journal transaction.
- Acquire assets and Revaluation for the assets.
- Tracking the maintenance contract for assets.
- Maintenance Cycle Period
- Spare part Inventory Management
- Etc.

Other Key Features

Integration: Asset purchase information from purchase order processing and payable management will update fixed asset management. You can ever assign multiple purchasing transactions to the same fixed asset. Furthermore, Fixed Asset Management activity including acquisitions, changes, transfer, depreciation and retirement/disposal updates the General Ledger and etc.

Benefit of Application

- ▶ ELIMINATE COSTS
- ▶ SAVE TIME & MONEY
- ▶ FLEXIBLE DATA
- ▶ EASY SETUP
